ABOUT US **R**EPUBLIC FURNITURE GROUP

In 1999 my father started producing outdoor furniture. Republic furniture group is a family furniture company from the second generation which had been started 20 years ago by the father and from that experience in 2011 second generation started to open a republic furniture group company by Dodik and two brothers and family. with new spirit we are confident with skill from generation to generation from our extended family about outdoor furniture we can produce high quality furniture and best model which can penetrate international market covering hotel project, wholesaler and retailer.

We started with one warehouse place at that time but by the time we prove every year we have an increase in the company and have sent our furniture items to customers more than 35 countries. plus we currently have 4 factories scattered jepara with a total area of nearly 10000 meters with the finished work on the machine in order to produce with the support of about 400 employees for some divisions. Republic Furniture focuses on producing high quality teak outdoor furniture and in its development Republic Furniture enlarges its business scope into a group covering two divisions namely furniture and lighting.

DODIK IKHWANTO
CEO REPUBLIC FURNITURE

TEAK

Teak wood that we use Premium quality, wood dried from certified sustainable forests. teak wood is very ideal for all outdoor furniture because its durability in the weather conditions of sun, rain, ice and snow effect. In addition, the character of the fiber and its color has its own characteristics.

Teak wood is classified as wood with durable class. It has a strong resistance to rot because of humid air or insect attack and easy maintenance. Teak wood also has a good resistance to weather and temperature changes, so we strongly recommend that teak wood is the best wood for outdoor furniture.

The elegance and modernity of the kosa chair, which has a material blend of teak and aluminum, make the harmony of the right combination and attention to every component detail the main attraction for the appearance of the lalita chair, and the use of batyline ensures the chair's comfort.

Using a traditional design to give the sensation of warmth gathering together, and focusing the strength of construction and selecting the best teak materials to produce weather resistance.
